

Coolant-resistant Type Shock Absorber: Double Rod Seal Specification RBL-X2946

Features

■ Prevents the entry of non-water-soluble cutting oil into the absorber more effectively than the RBL (Standard) series

- The scraper (for scraping foreign matter) has been changed to a rod seal (for scraping liquid).

	Non-water-soluble cutting oil	Dusty environments
RBL-X2946 	◎	△
RBL (Standard) 	○	○

* The standard product RBL is recommended in dusty environments.

■ External dimensions and specifications are compatible with the RBL (Standard) series.

■ Replacement caps and optional parts are the same as those of the RBL (Standard) series.

Caution

To ensure the safest possible operation of this product, please be sure to thoroughly read the "Safety Instructions" in our "Best Pneumatics" catalog before use.
